

DIALLO Assane
Software Engineer

- Ruby on Rails
- Node.js
- React Native
- Python
- Passionate/Dedicated

✉ asn.diallo@outlook.com 📞 (912) 572-6366 📍 Savannah, GA

With a Master's in Computer Science, I specialize in Ruby on Rails, Node.js and React Native, and I also have experience with Next.js, Python, C, and Java. As a U.S. Lawful Permanent Resident fluent in four languages, I leverage my diverse technical skills to support business growth and enhance operational efficiency nationwide. Passionate about technology, I am dedicated to delivering robust and innovative solutions to complex challenges.

📁 EXPERIENCES

Software Engineer

YoBool - Since March 2024 - Part-time

- Developed YoBool's backend using Ruby on Rails 7 in API-only mode, focusing on scalable and secure architecture.
- Implemented user authentication and authorization with Devise and Devise JWT, enhancing security with Pundit for access control.
- Integrated the complete Stripe infrastructure, including Stripe Connect with Express accounts and manual payouts.
- Managed complex database operations with PostgreSQL, ensuring robust data integrity and performance.
- Developed the mobile application using React Native with Expo, enhancing user accessibility and experience.

Full Stack developer

Pando2 - May 2022 to May 2024 - Paris - France

- Enhanced Web Application Functionality:** Key contributor to the enhancement of a Rails 6 application for air quality monitoring, integrating new features and leading a major redesign to improve user experience. Optimized performance using PostgreSQL, Elasticsearch, Redis, and Sidekiq.
- Led Microservice Architecture Development:** Orchestrated the development of Node.js-based microservices for sensor data analytics. Designed APIs for real-time IoT data processing and dynamic alert systems, including a custom API for autonomous sensor firmware updates via our S3 bucket.
- Collaborative Design and Development:** Worked closely with UX designers and a freelance front-end developer using Hotwire (Stimulus and Turbo) to enhance application design and functionality, boosting adaptability and engagement.
- Code Quality and Testing:** Contributed to establishing rigorous code standards and performed extensive testing using RSpec and Jest, ensuring the delivery of high-quality, maintainable code.

🎓 EDUCATION

Master's degree in Data engineering & AI Dev.

IPSSI CAMPUS DE PARIS

March 2022 to January 2024

Trains development experts for Data and AI professions

Bachelor of Engineering - BE in Computer Science

IMERIR DE PERPIGNAN

September 2020 to July 2021

📁 SKILLS

Programming Languages

- JavaScript ★★★★★
- Ruby ★★★★★
- Python ★★★★★
- Java & C ★★★★★

Mobile & Fullstack Dev.

- Ruby on Rails ★★★★★
- Node.js ★★★★★
- RESTful APIs & MVC arch. ★★★★★
- React Native ★★★★★
- Django ★★★★★

Databases & Cloud Services

- PostgreSQL ★★★★★
- Elasticsearch ★★★★★
- AWS Cloud Services ★★★★★
- Azure ★★★★★

IDE & CI/CD Tools

- Visual Studio ★★★★★
- Git ★★★★★
- Docker ★★★★★

🗣️ LANGUAGES

- 🇺🇸 English ★★★★★
- 🇫🇷 French ★★★★★
- 🇪🇸 Spanish ★★★★★
- 🇵🇸 Pulaar & Wolof ★★★★★
